

2016 SUN-n-FUN Forum - GA Maintenance Issues

With the average age of the GA fleet now in excess of 34 years, together with myriad new regulatory requirements emerging, such as ADS-B Out compliance by the year 2020, and with airworthiness regulations becoming more streamlined, such as the pending relaxation of certain STC certification rules, aircraft owners need to stay on top of changes affecting their maintenance programs. Come hear an industry expert discuss the most important airworthiness issues facing the GA fleet today.

This is a live presentation only.

Directions: The FAA Safety Center (new name: Orlando Field Office) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. Forums entrance is on the west side of the building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
